

Stewardship Commitment | Metrics at a Glance

FIELD		
Priority	Indicator	Metric
Feed Impact	Land use, irrigation water use, water quality and soil conservation	<ul style="list-style-type: none"> The Innovation Center for U.S. Dairy® (Innovation Center) continues to work with Field to Market to ensure these indicators and metrics are useful and relevant to dairy.
	Greenhouse gas (GHG) and energy intensity	<ul style="list-style-type: none"> U.S. dairy's LCA for U.S. Milk underpins GHG and energy metrics for feed production. Metrics mirror those used at the dairy farm and are reported in aggregate.
	Biodiversity	<ul style="list-style-type: none"> Written and implemented plans or programs that preserve, restore and/or improve biodiversity (select plans or programs from applicable options) Implemented practices that preserve, restore, and/or improve biodiversity (select practices from applicable options)
DAIRY FARM		
Priority	Indicator	Metric
Energy Use	Energy intensity	<ul style="list-style-type: none"> Total energy use (converted to MMBTU)/lb. of milk (FPCM)
GHG Emissions	GHG intensity	<ul style="list-style-type: none"> Total GHG emissions (tonnes CO₂e)/lb. of milk (FPCM)
Water Quantity	Water use (on-farm)	<ul style="list-style-type: none"> Gallons of water withdrawn (for lactating cows)/lb. of milk (FPCM)
Nutrient Management	Nutrient Management Plan	<ul style="list-style-type: none"> Do you implement and maintain a written Nutrient Management Plan? (Y/N)
Animal Care	Farm animal care	<ul style="list-style-type: none"> Do you participate in the FARM Animal Care program? (Y/N)
PROCESSOR		
Priority	Indicator	Metric
Energy Use	Energy intensity	<ul style="list-style-type: none"> Total energy use (converted to MMBTU)/lb. of production output
GHG Emissions	GHG intensity	<ul style="list-style-type: none"> Total GHG emissions (tonnes CO₂e, Scope 1 and 2)/lb. of production output
Water Quantity	Water withdrawal	<ul style="list-style-type: none"> Gallons of water withdrawn by source of water supply/lb. of production output
	Water efficiency	<ul style="list-style-type: none"> Gallons of water withdrawn/lb. of production output
	Water recycling and reuse	<ul style="list-style-type: none"> [Gallons of water supplied that are captured for reuse within the facility + milk water captured for use]/lb. of production output
	Milk water use	<ul style="list-style-type: none"> Gallons of water captured from milk for use within facility/lb. of production output
	Surplus water	<ul style="list-style-type: none"> [Discharge volume - water withdrawn]/lb. of production output
Water Quality	Water discharge and quality	<ul style="list-style-type: none"> Do you have a policy, program or monitoring system that ensures routine compliance with industrial or storm water permit parameters? (Y/N)
Resource Recovery	Waste diversion	<ul style="list-style-type: none"> Percent by weight total waste stream (lbs.) diverted from landfill or incineration without recapturing energy
	Throughput efficiency	<ul style="list-style-type: none"> Total waste stream/lb. of production output
	Resource utilization	<ul style="list-style-type: none"> Food/organics donated or repurposed as animal feed and non-food recycled or composted (lbs.)/total waste stream (lbs.) Food/organics repurposed for industrial uses or compost and non-food repurposed for energy recovery (lbs.)/total waste stream (lbs.) Waste sent to landfill or incineration without recapturing energy (lbs.)/total waste stream (lbs.)
Workforce Development	Human resources	<ul style="list-style-type: none"> Total number of jobs supplied and full-time employees at end of year Indirect and non-monetary benefits available to employees
	Worker safety	<ul style="list-style-type: none"> Do you have leading indicators to measure/encourage safe worker behavior? Describe measurement systems employed, and how this has led to a safer workforce. Days of restricted work activity or job transfer (DART) rate <ul style="list-style-type: none"> Explain why this has changed over time.
Community Contributions	Community volunteering	<ul style="list-style-type: none"> Volunteer activities performed by employees
	Monetary and product donations	<ul style="list-style-type: none"> Monetary and product donation activities
	Educational opportunities	<ul style="list-style-type: none"> Describe community educational events per year and the total number of participants.
	Product contributions	<ul style="list-style-type: none"> Servings of dairy donated or consistently supplied to a non-profit organization to feed food insecure people. (For Stewardship Commitment reporting, companies report in lbs.)
Product Safety & Quality	Food safety	<ul style="list-style-type: none"> Do you have validated, verifiable food safety programs and management systems in place? (Y/N) Do you frequently reassess your food safety programs to ensure efficacy and to reflect new food safety tools/practices and ensure continuous improvement? (Y/N)
	Traceability	<ul style="list-style-type: none"> Commitment to voluntary <i>U.S. Dairy Traceability Guidelines</i> (Y/N)
