Food Safety Resources

The Innovation Center for US Dairy partners with the American Cheese Society, North American Ice Cream Association, International Dairy Foods Association, The Dairy Practices Council and numerous other dairy organizations and Universities. We are committed to sharing best practices to strengthen food safety in all dairy processing facilities and to protect consumers by providing the following:

Websites

Interactive Online Training Courses

Online training courses designed for small to medium cheese, ice cream, and frozen dessert manufacturers by food safety experts from dairy processors and academia (NCSU, UConn, Cornell, UW). Each is divided into short modules to fit your schedule. They cover the importance of food safety, hazards, control strategies, GMP’s, sanitations, and environmental monitoring.

Nationwide Support & Food Safety Plan Writing Assistance
Coaching workshops, both in-person and virtual with monthly office hours and a free food safety support hotline are available across the US. These resources can help you with your food safety plans, programs, and improved practices. For course materials and Upcoming Workshops visit Food Safety Plan Support

Hotline: Dairyfoodssafetycoach@cornell.edu 315-787-2600

Local Resources
Not sure where to start? Our newest tool is a 50 State Map with a contact list of Cheese and Ice Cream local, regional, and national resources. This lists experts, consultants and state regulators or troubleshooting help and pilot plant facilities to assist you. Visit safeicecream.org/food-safety-map

In-Person Workshops (registration)

Dairy Plant Food Safety Workshops Two-day sessions focused on in-plant pathogen controls. Participants hear from FS/Quality experts and complete small team/hands-on exercises including designing an EM program, SSOP writing, and challenging real world case studies.

The Supplier Food Safety Management Workshop and Tools Help companies identify, quantify, and mitigate risks from their supply chain. Participants learn how to build a supplier program, assess risks, and employ best practices to mitigate those risks.
Food Safety Resources

Guidance Documents
Food safety guidance documents are available for self-study, internal training, and to check your existing programs against. These regularly updated guides were created by dairy subject matter experts to share knowledge/best practices broadly. Download at www.usdairy.com/foodsafety

For Companies of all sizes

Pathogen Controls
Listeria Controls
Traceability

For smaller, farmstead, artisan, or Fresh cheese (Queso Fresco, Panela...)

Supplier Controls

University/Extension Food Safety Courses in Spanish

Cornell’s [Introduction to Food Safety Principles](https://www.extension.cornell.edu/courses/introduction-food-safety-principles) is a 4-hour course tailored to frontline processing personnel and is designed to help participants understand the basic principles of food safety in a processing plant. The benefit of using this course is to train your employees quickly, and consistently on the importance of Food Safety.

Cornell University’s [Basic Dairy Science and Sanitation Workshop](https://www.extension.cornell.edu/courses/basic-dairy-science-sanitation-workshop) is a 2-day course tailored to dairy processing personnel and is designed to help participants understand the basic principles of dairy science and food safety.
